This winter vacation, we'll be holding a four-day camp focused on effective communication. The camp will include group discussions and role-playing in various simulated situations. These activities will help you practice expressing your thoughts and feelings while respecting others. If you're interested, please sign up at the counseling office starting next Friday. Don't miss this chance to develop your communication skills!

W: Dad, look at this website! I'm thinking of buying this laptop.

M: Wow, it's 30% off. That sounds like a good deal.

W: Yes! And, it says it's the latest model — fast and lightweight.

M: Great! I can see that it's got high ratings.

W: Yeah. Most people gave it five stars.

M: That's nice. Still, don't forget to check the warranty.

W: Warranty? Is that necessary?

M: Of course. Some deals only offer a short warranty period, and some don't offer any.

W: Oh, I didn't know about that.

M: You might need to get it repaired sooner than you think. So it's necessary to check the warranty period before you buy an electronic device.

W: Got it. I'll make sure to check it beforehand.

3. 다음을 듣고, 여자가 하는 말의 요지로 가장 적절한 것을 고르시오.

W: Hi, it's Lisa with your weekly wellness advice. Have you ever started working out by trying a trendy or popular exercise, only to give up soon after? Here's a helpful tip to stay consistent with exercise. Try doing workouts you actually enjoy. When you do exercises you enjoy, you feel less tired and stressed. Also, they can boost your internal motivation, which helps you keep going. Whatever it is, dancing, walking or playing badminton, doing an activity you find fun can help you stick to it. So, remember — choose what you enjoy, and keep going strong!

W: I'm glad you like it! What do you think about placing the title "THE MIDNIGHT BROOM" at the top center of the cover?

M: I think that fits well. And the girl must be Sally, the main character.

W: Yes, she's wearing the stripe-patterned hat.

M: It really stands out. I love it!

W: Thanks. And to create a mysterious atmosphere, I added a big round full moon.

M: Good. The full moon really sets the mood.

W: Can you see the three bats flying up there?

M: Yeah, I see them. I think they also add a touch of mystery.

W: That's what I intended. Lastly, I put a lot of effort into drawing the cat next to the flag.

W: Yes, I divided it into categories.

M: Oh, I see that you've already finished packing.

W: That's right. I also labeled each box to show which room it should go in.

M: Great. Do you want me to help you move the boxes on moving day?

W: Thank you, but my friends will help.

M: It seems you're almost ready. If you need any help, just let me know.

W: Hmm. Then, I'll go with the color printing, please.

M: Okay. We also offer a binding service for \$3. Do you need it?

W: Yes. Please bind them into a book.

M: Alright. You chose color printing for 200 pages with binding.

W: Then is anyone on your team injured?

M: No, all of my teammates are in good shape.

W: I heard a school event is going to be held in the gym. Is that the reason?

M: No, the event was moved to the auditorium.

W: Hmm. That's over my budget. I want to stay under \$200.

M: Got it. Have you ever tried winter sports before?

W: No, I haven't. That's why I need to select a course for beginners.

M: I see. Then I guess you'd prefer private lessons, right?

W: Yeah, one-on-one lessons will help me learn the basics.

M: Then that leaves you with these two options.

W: Then we should write an experiment plan.

M: An experiment plan? Is that really necessary?

W: The science teacher said that it's a rule to submit a plan in advance and get his permission.

W: Hello, everyone. As all of you are aware, home appliances and even small devices are getting smarter. Today, I'd like to talk about how AI has already become part of many devices that we use. Let's begin with speakers. Speakers with AI can recognize your voice, answer questions, and play music. Next, many TVs now use AI. They can recommend shows and movies based on our viewing habits. Also, you can find AI in washing machines. Using AI, they can detect the weight and type of laundry, then automatically choose the best washing cycle. Finally, refrigerators are getting smarter with AI. They can track what's inside, remind us when food is about to go bad, and even suggest recipes using available ingredients. As you can see, AI is working in the background in many of the devices we use every day. Now, let's watch a video.
